Subject: Anniversary of the invasion of Iraq

For those, like us, who choose never to forget or forgive the folly of Australia's joining the US-led invasion of Iraq exactly eleven years ago, we offer a simple mnemonic.

It is easy enough to remember that the invasion took place in 2003. Pleasingly, repetition of the year also gives you the actual date - 'Twenty O Three, Twenty O Three' or 20th March, 2003.
